Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

The following is a response to the amendment received on February 15, 2006 which has been entered.

Response to Amendment

Claims 1-38 are pending in the application.

-The 102(b) rejections of claims 25, 26 and 28-31 has been withdrawn due to applicant amending the claims with limitations not disclosed by the prior art of record used in the rejections.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 25-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification doesn't support claim 25 as amended because (on page 5, lines 13-22 and pages 8-9) the disclosure suggest that clutch 22 has to be engaged for the first speed ratio, but not engaged for all the other speed ratios, this does not suggest continuous connection between the input and the first layshaft as in claim 25.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 25 and 28 are rejected under 35 U.S.C. 102(b) as being unpatentable by Wehking ('283). Wehking discloses an input (22), a first layshaft (38), a second layshaft (52), a first power path for continuously (clutch 40 is engaged during all forward speeds column 2, lines 56-57) transmitting power between the input and the first layshaft for producing a first speed ratio, a second power path for discontinuously (clutch 62 is engaged for obtaining a different speed ratio that first, column 2, lines 58-60) transmitting power between the input and the second layshaft for producing a second speed ratio and a clutch (62) for releasably connecting the input and the second layshaft.

The first power path comprises a first pinion (24) driveably connected to the input and a first gear (34) supported on the first layshaft for engaging the first pinion and the second power path comprises a second pinion (26) driveably connected to the input and a first gear (58) supported on the second layshaft for engaging (via 56) the second pinion.

Allowable Subject Matter

Claims 1-24 and 32-38 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
